

DISTRIBUTION

The waters of the Weber River and its tributaries were distributed according to the Weber River Decree of May 1937, in the case of Plain City Irrigation Company, Plaintiff, vs. Hooper Irrigation Company, et al, Defendants. However, the Weber River Decree does not cover all of the rights that water was delivered to. Many new applications have been filed with the Utah State Engineer and these applications received water according to their priorities in relation to the other rights on the Weber River System.
